Hi, I'm Uki (oo-key) & I was found abandoned at gas station as a puppy. I'm a sweet boy who gets walked at least once a day and has two outside playtime's to let out all my energy. Inside the house you can find me next to my owners or lounging on the multiple beds throughout the house, but my favorite is cuddling on the couch with humans. I love people, especially children! They play with me, sometimes a little to rough, but it doesn't bother me, especially because they give me food when mommy isn't looking!

Hey, I'm Peach & I'm still a growing pup! I estimate I'll be around 45 lbs. Currently, I'm going through my mom's puppy boot-camp and I've already learned so much! I'm very good at using the bathroom outside with almost no accidents inside. To be properly socialized, I'm meeting new people and animals every day! As much as I enjoy playing with my new friend's, I love playing with my brother the most!
